They have put ageing in the centre of their artistic expression. For more than two years they have been exploring different spheres of ageing with seniors, who until that point mostly had no connection to theatre. They were building a community that is bravely facing stereotypes and isolation towards <i>Seniors</i> through research of memory and poetic interpretation of ageing.	<b>Produced by</b> Glej Theatre <b>Co-produced by:</b> Academy of Theatre, Radio, Film and Television, University of Ljubljana More about the performance: <a href="https://www.glej.si/en/seniors-2">https://www.glej.si/en/seniors-2</a>
